SUMMARY

Motivated and analytical Honours Computer Science student with a strong foundation in software development, IT support, and problem solving. Experienced in developing web applications and supporting ICT environments while collaborating with diverse users. Passionate about innovation, continuous learning, and using technology to create practical business solutions. Eager to contribute technical, analytical, and interpersonal skills within a graduate programme while continuing to develop professionally.

PROJECT EXPERIENCE

Personal Portfolio Website

- Designed and developed a personal portfolio website to showcase my projects, skills, and background.
- Implemented a clean UI/UX layout, responsive front-end design, and seamless contact form integration using Formspree.
- Handled all development tasks including coding, optimization, and deployment on Netlify.
- Hosted the website live at: matemubaloyiportfolio.netlify.app

Elsiestore Website

- Built a fully functional e-commerce website for a real street vendor using HTML, CSS, PHP, JavaScript, and SQL.
- Implemented product management, admin dashboard, category-based filtering, and multi-image upload using Cloudinary.
- Developed responsive front-end and handled client-side logic for product display and cart functionality.
- Hosted the website live at: elsiestore.co.za

WORK EXPERIENCE

Department of basic Education - Rivoni School for the Blind — June 2025 - November 2025

Education Assistant e-Cadre ICT Support

- Provided technical support to learners and staff, ensuring smooth operation of computers, mobile devices, and assistive technologies used by visually-impaired students.
- Assisted with troubleshooting hardware and software issues, including device setup, system updates, and basic maintenance.
- Supported teachers with ICT-related tasks to enhance digital learning and accessibility in the classroom.
- Helped learners navigate digital tools and devices safely, promoting independence and an inclusive learning environment.
